AMERICAN-CRYPTO-BANK: TRADE, EARN,  
THRIVE.

# 1 Abstract

---

American-Crypto-Bank (ACB) is a revolutionary cryptocurrency project designed to simplify digital asset trading while fostering sustainability and community growth. With a total supply of 250,000,000 ACB tokens, the platform introduces a unique resale commission mechanism, ensuring a portion of each resale supports ecosystem development and liquidity. Governed by the Buy Sell Trade After Sale or Purchase framework, ACB offers seamless, secure transactions enhanced by a personalized touch: “American-Crypto-Bank thanks you for your transaction.” By combining transparency, innovation, and user-centric features, ACB is set to transform the digital trading landscape and empower a thriving financial community.

# 2 Introduction

---

American-Crypto-Bank (ACB) is a groundbreaking cryptocurrency project aimed at simplifying the way users trade, buy, and sell digital assets. Built on the principle of secure and seamless transactions, ACB introduces a new era of transactional convenience and transparency. The platform rewards participation and incorporates a sustainable revenue-sharing mechanism.

# 3 VISION & MISSION

---

## Vision

To establish American-Crypto-Bank (ACB) as a global leader in decentralized finance by creating a vibrant, transparent, and inclusive ecosystem where users thrive and digital transactions drive economic opportunities worldwide.

## Mission

To revolutionize the digital trading ecosystem by providing a secure, user-friendly platform that empowers users to trade, buy, and sell cryptocurrency efficiently while fostering sustainable growth through an innovative resale commission model.

# 4.

# TOKENOMICS

**NAME: AMERICAN-CRYPTO-BANK**

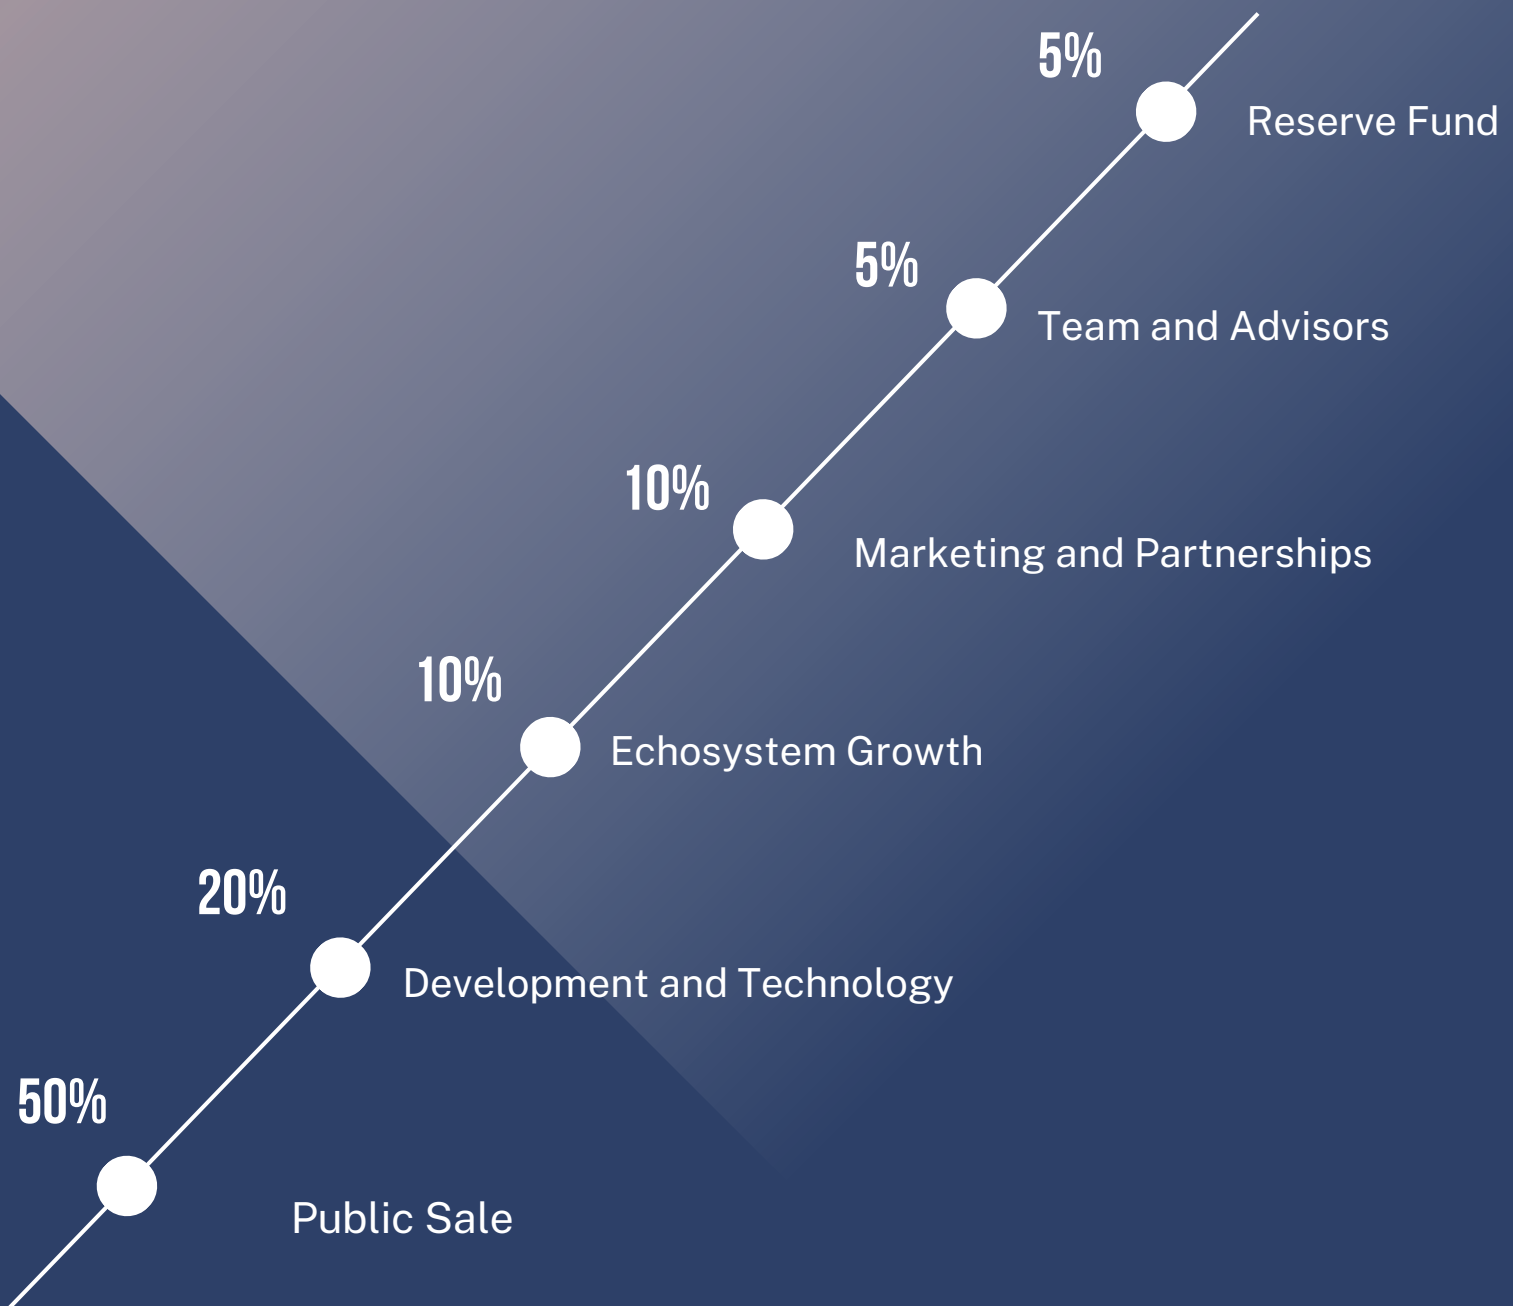

**SYMBOL: ACB**

**BLOCKCHAIN: BSC**

**TOTAL SUPPLY: 250,000,000**

# TOKEN DISTRIBUTION

Total Supply:  
100,000,000 \$ZIRD tokens

# 5. UTILITY

ACB offers utility within a multifaceted ecosystem that promotes financial innovation and user engagement.

## Use Cases:

- Trading

Secure peer-to-peer transactions with minimal fees.

- Rewards System

Users who actively participate in the ecosystem benefit from a structured reward system funded by the resale commission.

- Ecosystem Growth

Supporting the development of innovative financial tools for the global cryptocurrency community.

# 6. ROADMAP

## **Phase 1: Foundation**

- Smart contract deployment.
- Initial token distribution.

## **Phase 2: Ecosystem Launch**

- Launch trading and commission mechanisms.
- Initiate user rewards and promotional campaigns.

## **Phase 3: Expansion**

- Introduce advanced trading tools.
- Onboard new partnerships and integrations.

# 7

---

## Key Features

- Buy, Sell, and Trade Functionality

Users can engage in straightforward and efficient trading of ACB tokens, leveraging the platform's intuitive interface for transactions.

- Commission Mechanism

To ensure sustainability and incentivize long-term use, American-Crypto-Bank introduces a resell commission mechanism:

How It Works:

When an ACB token is resold, a small commission is automatically allocated to the project. This feature operates under the Buy Sell Trade After Sale or Purchase framework, ensuring compliance with platform policies.
